Dear Mr. Leong,

**Re: Successful ISO 17712 Clause 6-Related Inspection Concerning Seal model(s):**

Type	Seal Name	Model No
Cable Seal	Mega Cable Lock 350	MCL 350

This is to confirm that on the 11th October 2013, our audit team carried out an audit on the management processes related to the ISO 17712:2013, Mechanical seals, Clause 6 Evidence of Tampering for **MEGA FORTRIS (MALAYSIA) SDN. BHD.** (MFMSB). In particular, our audit team audited the Quality Process Manual and Procedures, supporting files, test reports and documentation related to the seal models indicated above inclusive of those documents relevant to control of non-conformities, corrective & preventive action including work instructions established to manage potential tampering.

During the course of the audit, staff members of MFMSB were interviewed and evidence of implementation of controls was reviewed. Our audit team can conclude that the application of MFMSB's "Tamper-Related Process Manual" and the supporting documentation, including documentation of physical tests, for each product listed above, conform to Clause 6 Requirements.

To summarize, as a result of our audit, we can conclude that MFMSB's seal models listed above conform to ISO 17712:2013 Clause 6 Requirements.

We appreciate MFMSB's confidence in selecting our firm to serve as your independent process auditor.

Kind regards,

*HSNO*
